Special News from the National Shrine

Bishop Daniel Turley, OSA, the Rector at the National Shrine of St. Frances Xavier Cabrini in Chicago, presents a letter to Pope Leo XIV from the Shrine's Board Chair regarding the 80th Anniversary of Mother Cabrini's canonization.

Bishop Daniel Turley and Pope Leo XIV, both Augustinian priests, worked together for many years in Peru. In fact, at one point, Bishop Turley was the Pope's (Fr. Robert Prevost) supervisor.

On January 2, 2026, Bishop Turley met with Pope Leo XIV, which was the first time the two have seen each other since the Pope's election. In the photo at the Pope's desk, Bishop Turley is handing the Pope a letter from our National Shrine's Board Chair, Kathleen Sprows Cummings, regarding the 80th Anniversary of Mother Cabrini's canonization.

Bishop Turley and Pope Leo XIV had a wonderful visit, catching up with each other as good friends.

Sharing Culture Through Conversation and Cuisine

Cabrini Immigrant Services – Dobbs Ferry, NY (CIS-DF), had a special visit from some high school students who attend The Masters School in Dobbs Ferry. The students are enrolled in a special course entitled: *Bring People Together Through Culture, Communication and Community*.

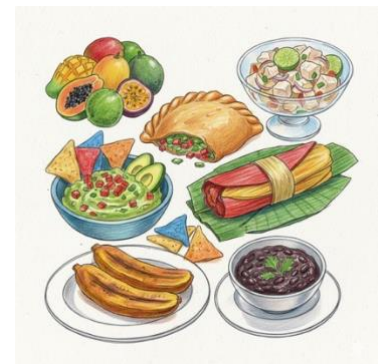

Students from The Masters School spend time in conversation with members of the Knitting Group of CIS-DF.

The students, along with their teachers, visited with our Knitting Group. The students wanted to meet with our clients to learn about their different cultures, how they arrived in

the US, etc. Some of the countries represented by our clients are Guatemala, Honduras, Chile, Mexico, Dominican Republic, etc.

There was a beautiful exchange between our clients and the students. One student asked, “How do you keep your culture alive in this country?” A perfect answer was by inviting the students to taste some of the delicacies that the clients made. The knitting group always shares different foods from their countries while they knit and crochet. They feel that using recipes from their countries is a perfect way to keep their traditions alive.

Our clients gave the students some advice. They told them that they are the future and that they must work to make the world a better place. The visit was a positive experience for our clients and for the students. We hope that the students will be back for another visit. ~ submitted by Lorraine Campanelli, Director, CIS-DF
